

GLASS ONION "I watched this movie without ever have even seen the first one in the series, yet that didn't change my outtake on the movie at all. It was extremely entertaining and kept me guessing and talking to my screen the whole time. Overall, it had a really unique plot."

AIRPOD MAXS Bigger is better, right? Apple managed to create a product even better than the beloved AirPods, showing that size truly does make a difference. "I wanted them because I like over the ear headphones more than typical AirPods. Also because they have more longevity than beats, and come in better colors. After using them for about a month I can easily say they are better than AirPods. They allow you to change all sorts of sound quality factors, and they have detachable cushions. The detachable cushions enable you to use one set for comfort, and another for working out, therefore they don't get gross."

SLANG New words are always being added to the dictionary of slang, and here's a list of new additions from 2022-2023.

ONCLOUDS The shoes that every Baylor man or woman is bound to have. A stylish appeal with a cloud-like comfort. "Best shoe ever. It feels like you're sleepwalking on clouds. If you see a girl not wearing Onclouds she probably doesn't go to Baylor. I style them mostly with athletic clothes for a comfortable and casual look great for walking to class because of how comfortable they are."

STANLEY CUPS The durable tumbler that took the world by storm, Stanley cups became the hottest hit in hydration. "Honestly at first I was skeptical of Stanleys as just another college micro-trend influencer 'must have' and then I got one because I heard so many great things about them. I fully understand why Stanleys became so popular; they're cute and so easy to carry around and you get lots of water throughout the day."

TIKTOK The app that makes binge-watching videos a hobby. "I enjoy Tiktok because of the instant and wide variety of entertainment it provides. It has everything from fun videos to life hacks to new music."

GRUBHUB An app that takes away the hassle of long drive-thrus and waiting times? Count us in. "The Chick-Fil-A in the SUB adds various additional items to the once small menu, pleasing the regulars."

MIDNIGHTS Taylor Swift never fails to impress, and the release of 'Midnights' proved this even further to be true. "Midnights is an album that is loved by myself and so many others because it highlights Taylor Swift's progression as an artist, while shedding light on her own personal experience with relationships. Taylor Swift's music has attracted attention from all over the world because her lyrics are something girls of all ages can relate to. 'Midnight Rain' is my favorite song on the album because it is catchy and upbeat."

SOS R&B and soul through a modern voice. SZA is loved by many, and knows how to produce heart-to-heart tunes. "This album shows SZA's confidence in who she is and showcases her as a truly independent woman. Her other albums are her working through pain and breakups but in SOS she truly loves herself and has surrounded herself with the right people. Open Arms is probably my favorite with its catchy lyrics and inspiring message about finding comfort in the arms of those that truly love you."
